I'm writing to address the New Gun Control Measures Being introduced by the Governor I came to Connecticut almost 15 years ago after living most of my life in NYC ,and serving 15 Years in the NYPD ,and saw first hand what happens to Citizens when they are severely restricted from practicing their 2nd Amendment right .I saw Many times as a police officer how gun laws were ineffective against criminals while unarmed or under armed law abiding citizens became easy targets for predators .The introduced legislation to restrict legal gun owners to purchasing or transferring one gun per month will do nothing to curb gun violence ,it will do nothing to stop criminal or drug dealers who illegally can attain any gun they want ,and as many as they want ,and neither will restricting any further semi automatic rifles . There are so many minorities like myself of Latin descent ,and many African Americans in the state of Connecticut who worry about the judicial system every time we step out of our homes ,why do you insist on finding new ways to make us all who are legal gun owning citizens who purchased our guns or rifles in compliance with the existing stringent laws you enacted into instant criminals?? .You gentlemen ,and ladies enacted the toughest gun laws that exist in any state ,and they passed !! There is no need for this other than to use us ,and the 2nd Amendment as a political football you can kick around every time you choose to make a political statement! Where does it end ?.
